Vol. XXIII. No.

Royalty in Toronto.

Winnipeg, Oct. 11, '01.
The royal party received an enthusiastic welcome to Toronto.

The War.

KITCHENER'S SCOUTS CAUGHT.
Martial Law Declared in Cape Colony.
Britain Does Not Need More Troops.

Some of Kitchener's scouts were captured in an ambush. Martial law in Cape Colony is regarded with favor by commercial interests of the district affected. The British government has declined offers of fresh troops and Mr. Broderick states that the cabinet is not working over the progress of the South African campaign.

General Telegraphic.

RUSSIA IN CHINA.—IT WILL SOON BE CHINA IN RUSSIA.

Anarchist Editors in Paris.

Seizure of British Deserter on U.S. Vessel.

Canadian Cattle at Pan American.

Admiral Schley on Retired List.

Renunciation of Sympathy on Death of Clarke Wallace.

Russia is apparently carrying out her promises in China in good faith, and the Chinese are restoring order in many districts in a surprisingly quick space of time.

The manager and editor of a Paris anarchist organ have been sentenced to imprisonment for inciting people to murder.

Two British deserters from the warship Nube were forcibly taken from an American schooner.

Canadian cattle at the Pan-American captured many prizes, surpassing United States exhibitors.

Admiral Schley has been placed on the retired list.

The Ottawa cabinet has sent a resolution of condolence to Mrs. Clarke Wallace.

According to J. Quincy Adams Harty, a leader of the temperance movement, now in London, Eng., all lotteries will combine into one vast array.

Vancouver, Y. M. C. A. team have reached Montreal and will play a series of games for the Minto cup instead of a single match.

During the past month nine hundred thousand bushels of wheat were shipped to Britain from the C. N. R. lines in Manitoba.

A mob at Porto Cabello, Venezuela, fiercely attacked fifty German sailors in the town.

Sir James Grant states that all small pox in Ottawa to-day is of the mildest kind.

W. H. Stapleton lost an arm at Southwiche, Man., in a threshing accident.

Go. Young, formerly of Carberry, Man., was drowned at Pilot Bay, B.C. The C. P. R. is constructing a line to Cranman, Man., from Oxbow west.

John A. McInnes, manager of the credit house Winnipeg, is dead.

The natural gas supply in Essex County, Ont., is giving out.

The population of the district of Keewatin is placed at 52,000.

A road collision occurred at Eagle river, on the C. P. R.

Carmen's public school was destroyed by fire.

Chicago wheat prices are unchanged.

The police department has purchased the residence of John Cameron, on Jasper avenue, in the east end of town. The intention is to occupy it as a barracks for the town detachment.

The purchase of such a valuable property indicates a permanence that will be very satisfactory to the people of the place. The price is said to be \$5,000. The house is of solid brick and is substantial and commodious in every particular. The lot upon which it stands gives ample room for all requirements of the detachment.

LOCAL.

—Joy Charbonneau came in from Calgary Wednesday on a visit.

—Norman Jackson came up from Calgary on Wednesday's train.

—A new 24 foot auction house for the fire engine came in Monday.

—Assistant post office inspector, H. H. Phinney, came in from Winnipeg Tuesday.

—A two story brick house is being erected by Herbert Cardinal on May street.

—Morris McDermott left Tuesday morning for Moscow, Idaho, where he will reside.

—Tom McNamara, of Calgary, came up Wednesday to take the position of telegraph operator here.

—Mr. and Mrs. C. T. Christie, of the H. B. Co., post, Fort Simpson, left for Winnipeg Thursday morning.

—Mr. J. R. Walker, of Ingersoll, Ont., father of Dr. Walker, of Wetaskiwin, came in Wednesday night.

—Innisfail fall fair was held on Tuesday, Sept. 24th. The Free Lance reports that it was a great success.

—The Olds fall fair was held on Wednesday, Oct. 2nd. The prize list is published in the Free Lance of the 4th.

—S. B. McNamara, operator in the telegraph office here, left Thursday for Moose Jaw where he will be stationed.

—Mrs. D. D. Mann and son came in from Toronto Wednesday. Mrs. Mann is the wife of Dan Mann, of Mackenzie and Mann. She is on a visit to her sister, Mrs. Crosswhite, of Fort Saskatchewan.

—Two thousand two hundred pounds of musk ox robes were shipped Thursday by McLaughlin & Scott to Holt, Redfear & Co., Quebec.

—Threshing rate this season is 2-1/2 to 3c for oats and 3-1/2 to 4c for wheat. Threshing finding full crew and farmer boarding them.

—Mr. and Mrs. T. Gregg, at one time, of Strathcona, but now of Vancouver, came on a visit to their friends in the two towns.

—Mrs. J. Coleman, of Cross Hill, Ont., returned Tuesday to her home at Cross Hill, after a visit to her aunt, Mrs. Jas. Goodridge, here.

—Owing to the indisposition of Miss Reid, who is ill with typhoid fever at her home south of Strathcona, the concert on behalf of the reading room is indefinitely postponed.

—W. J. Webster, of the woollen mill, has returned to purchase a few ears of sheep for sale to the farmers of the vicinity. He expects to return about the 15th November.

—Walter & Kelly start their threshing at Horse Hills to-day. The engine is a new 20 horse traction Advance, made at Battle Creek, Michigan. The separator is a 40 inch cylinder, Buffalo Pitts.

—T. C. Weeks, O. Beecher, John Warren and C. S. Wren, of Nebraska, returned 3 south Tuesday morning after looking over the land in the vicinity of town. They intend returning to Nebraska to examine further into their resources at a later date.

—G. Lacerte, of Spruce Grove, was threshing on Saturday and Monday. His Reel machine, O. C. yielded 50 bushels per acre by measure, and barley 50 bushels. The grain was of good quality and would weigh heavy.

—Harry Poyer, rancher of Vermilion came in Wednesday. Mr. Poyer, on arriving here, saw by telegraphic despatches in the press that his brother, who is a baggage and expressman, was fatally injured in the recent accident on the Quebec Central railway.

—Hewitt Bros., of North Sturgeon, have purchased the Stevens Manufacturing Co., of London, Ont., a portable 18 horse engine and boiler and 32 inch cylinder separator. They will start threshing on Monday. They will probably arrive in a small gang mill here after the close of the threshing season.

—Fishery inspector Harrison S. Young left yesterday for Lac la Piche and other points on his regular tour of inspection of the fishing lakes.

—Close season for all the lakes north of the Saskatchewan river is from the 1st of October to the 15th November.

—Falcon lake, on the south side, is protected from the 1st Oct. to 23rd December.

—A ledge of the Canadian Order of Woodmen was formed in Strathcona Monday night, when the following officers were elected: Pres. Con. Com. Dr. Craig; Con. Com., G. W. Bradley; Adv. Lieut., W. C. Wood; Banker, M. E. Herriek; Clerk, D. Twomey; Physician, Dr. Craig; Escort, R. Bissett; Watchman, F. C. Marks; Sentry, W. Sullivan; Managers, A. W. Toll, H. E. Cameron and C. Boughey; Delegate, G. W. Bradley, alternate delegate, M. E. Herriek.

—Honest Inspector Harrison returned Monday from a trip through the Fort Saskatchewan, Clover, Clover Bar and Baker districts. The Baker district is a newly organized school district southeast of Fort Saskatchewan.

—The settlers there are making good progress in the clearing and cultivation of their land. A school and a Presbyterian church have been built. Several settlers had threshed. In the Clover Bar and Baker settlements threshing was also general.

—A Galician working on the railway grade received Tuesday a letter from his mother at 15 miles north of Star, conveying to him the intelligence of a serious shooting accident which had just taken place near his home.

—His son, a young lad, was trying to place a cartridge in a breach loaded shot gun. The cartridge would not fit and he took the hammer and tried to drive it in.

—The very natural result was that the hammer struck the boy's mother in the calves of both legs, making a very painful wound. The Galician purchased a horse and, borrowing a rig, started for his home Tuesday afternoon.

—If the wound is serious he will bring the injured woman back to the hospital.

—Rev. D. H. Lest, of White Whale lake, is in town.

—C. P. R. auditor Tennant came in Wednesday night.

—A new plate glass window for Stovel's store came in yesterday.

—T. A. Gregg left for Winnipeg yesterday morning to be away a week.

—Mrs. C. W. Cross left this morning on a visit to her home at Madoe, Ont.

—J. K. Cornwall, of Bredin & Cornwall, traders, Lesser Slave lake, is in town.

—Crags & canyon, lately published at Banff by I. K. Byers, has suspended publication.

—Calgary Herald, Oct. 8: After a week of fine bright weather to-day opened with a strong wind and a nasty rain storm.

—Hovatt & Keeling and M. H. Jock came in yesterday from the latter's trading post in the Jasper Pass. The gauge in that section of the country is becoming very scarce, the Indians having killed off the greater part of the fur-bearing animals.

—Calgary Herald, Oct. 9: Immigration agent Winn has gone north to act as judge of roots and vegetables at the Red Deer agricultural exhibition. He will also go as far as Edmonton.

—An Indian, Thomas Gaucher, was brought in from St. Albert Wednesday by Const. McCully, having received a month's sentence from M. Hebert, J. P., for being under the influence of liquor.

—Calgary Herald, Oct. 9: It is learned on excellent authority that Mr. A. L. Sifton, commissioner of public lands, McCully, having received, has been offered by the minister of justice the vacant position of chief justice of the supreme court of the Territories and that he has declined to accept it.

NEW ADVERTISEMENTS

EDMONTON BULLETIN, OCT. 11th, 1901.

Crop of 1901.

3,500,000 Bushels in the
Edmonton District.

INCREASE ONE-THIRD OVER LAST YEAR.

Four and a Half Million Bushels in Northern
Alberta.

The district of which Edmonton and Strathcona are the business centre is the great grain producing section of Alberta, and the amount of grain produced each year in that district has become an important contribution to the wealth of Canada. For several years past the Bulletin has made a specialty of securing information upon which a reliable estimate of the crop of the district could be made. The basis taken is the sales of binder twine. A farmer does not buy twine unless he has use for it, and he does not buy any more than he has use for. Only a few dealers handle twine and therefore it is possible to get exact figures as to the sales made. An estimate of the amount of twine used in the year gives the acreage and an estimate of the yield per acre gives the total yield, and therefore the addition to the wealth of the district by the season's operations.

In addition to the sales of twine the sales of binders and threshers are an indication of the increase of acreage or of yield if there has been an increase and of the value of the crop.

The information furnished by the dealers does not admit of a division between the sales in Edmonton and Strathcona or between the several dealers. The sales for the season so far as can be learned were:

Twine,	300,000 lbs.
Twine per acre,	3-1-2 lbs.
Acres, crop,	86,571
Binders,	241
Threshers,	23

In 1900 the equivalent was:

Twine,	260,000 lbs.
Twine per acre,	3-1-2 lbs.
Acres, crop,	74,285
Binders,	390
Threshers,	29

Estimating the wheat acreage on one-third of the whole and the oats and barley at two-thirds there was 29,000 acres of wheat and 58,000 acres of oats and barley. As the barley area is comparatively insignificant it may safely be counted with the oats. Last year the wheat was estimated at 15 bushels per acre and the oats at 40, which was generally conceded to be well within the mark. Then the crop had all been thrown flat by a storm in the latter part of August. Cutting was delayed into November, successive storms occurred and there was a plague of mice. Harvesting could not have been more unfavorable therefore there was considerable loss. This season the promise was quite equal to last year and the harvest although unfavorable to some degree has not so far resulted in serious loss. It will therefore be safe to place the yield of wheat at 20 bushels per acre and of oats and barley at 50 bushels.

Twenty bushels on each of 29,000 acres gives a total of 580,000 bushels of wheat. Fifty bushels on each of 58,000 acres gives 2,900,000 bushels of oats. Roughly the crop of the district trading at Edmonton and Strathcona for this year may safely be placed at half a million bushels of wheat and three million bushels of oats and barley. This region includes the local electoral districts of Edmonton, St. Albert and Victoria. It does not extend more than twelve to fifteen miles south of Strathcona, as the country further south is supplied from the various towns along the C. & E. line. The settlement extends up and down the river, however, some forty miles west and sixty miles east by 30 miles north. The total estimate for last year from the same area was 2,375,000 bushels of grain of which 2,000,000 was oats and barley and 375,000 wheat. The estimated increase of this year is over a million bushels, or fully one-third.

The sales of binders and threshers are a sure indication of crop increase. Although the sales are not as great as last year the circumstances have to be considered. Last year owing to the condition of the grain, many farmers had to buy extra binders in order to get their crop off. Owing to the short crop in Manitoba any number of binders could be procured. This season the crop conditions do not require extra binders, and owing to the heavy crop in Manitoba binders could not be procured. Several of the agencies here were sold out of binders before the harvest had fully begun. The same is the case regarding threshers.

Orders given could not be filled. Besides almost all the threshers sold this season were steamers and of the largest sizes. And again the count may not be complete as threshers may have been purchased of which the Bulletin has not heard. Several of the threshers included in the count given were purchased direct and not through the implement agencies, and as the threshing season has only commenced others may yet be purchased. In any case an increase of 23 last year, proving the rapid progress of the district in grain growing.

The country along the C. & E. line which is supplied with twine and binders from Leduc, Wetaskiwin, Ponoka, Lacombe, Red Deer, Innisfail and Olds must also have a very large acreage and yield. A million bushels of grain for that part of the country is probably a low estimate. The wheat gives a total crop of four and a half million bushels of grain in North Alberta this season.

LESSER SLAVE LAKE.

A. W. Ponton, D. L. S., of the Indian department survey party, arrived from Lesser Slave lake on Monday accompanied by B. E. Round and Dr. Baldwin, of his party. The remainder were delayed at the Landing awaiting transport. Mr. Ponton went out last spring to survey reserves for the Indians of Lesser Slave lake who entered treaty two years ago. Considerable difficulty was experienced in arriving at a conclusion as to what the Indians wanted; and of course as they were there first they had first choice. There is a greater tendency amongst them to take their land in individual holdings than existed in the Sagkekeewin region. The majority, however, decided to take their lands in blocks of fifteen to twenty square miles each, only a few demanding individual holdings.

The largest reserve contains twenty square miles and occupies both banks of the Drift River at its outlet on the north shore of the lake about one-third of the length of the lake from its western end. Chief Kinesay is head of the band of this reserve. The soil is excellent for farming, and the growth of grass and wild vegetation generally most remarkable. Kinesay is head chief of the Indians of Lesser Slave lake.

Another reserve is located along the south shore of the lake westerly and northerly from the mouth of Sucker Creek. It contains some fifteen square miles and is occupied by a division of Kinesay's band and under headman Mustos. This reserve is near the trading posts at the western end of the main lake and has a magnificent growth of hay besides some excellent farming land. Although this season was not very good for hay as some of the best hay land was covered by the high water of the lake, Mustos had put up 200 tons of hay, cut with one mower. The hay will be for the cattle of the Indians and for sale at the trading posts.

Several individual holdings were surveyed. It is probable that the remainder of the Indians of the lake will select a third reserve at the eastern end of the lake. The survey of this reserve cannot be made until next summer.

The weather was wet during the early part of the year, but after the middle of that month it was very fine. There was an appearance of frost on August 22nd, but the first frost of any account occurred on the night of Sept. 10th, 17th and 18th, and was quite severe. After that the weather was very fine until the party left on Monday, Sept. 30th. The garden at the church of England mission, at the lake, was very fine. The products included English broad beans, scarlet runner beans, cucumbers, tomatoes, cauliflowers, potatoes, etc. all of excellent quality. Other gardens and fields were proportionately good. The country surrounding the lake is chiefly timbered, but the growth indicates that it had at one time been prairie and has grown into timber in comparatively recent years. The timber is chiefly poplar, with some spruce intermixed and shows a very vigorous growth. The trees are large, tall, straight and round. The black soil is generally shallow on the uplands, but the timber growth would indicate more favorable conditions. The principal open country is on the shores of the lake at the mouths of streams, where land has been built out into the lake by the deposits of the streams. In these localities the soil is very rich and the growth remarkably rank. Grass was five feet in height, and much of it resembled bromus in appearance. All the conditions indicated favorable climatic conditions. Berries of many varieties were numerous, including strawberries, raspberries, red currants, black currants, black currantberries, soap berries and many others. Raspberries were plentiful, where the party were working on Sept. 15th.

Drift coal was seen on the Drift River and the Indians reported a seam further up. It resembled Edmonton coal, but was a brighter black. Many of the creeks showed rust on the stones indicating deposits of iron or other mineral.

The half-breeds and Indians of the lake have large numbers of ponies which winter out in the tall grass along the lake shores. They seem to be of a better class than the Indian ponies of the plains. They also have some cattle for which they provide hay in abundance.

The great attraction of population to the lake is the white fish, which are caught in large numbers all the year round, but particularly during the spawning season. This year they are more abundant than usual. The Indians attribute this to the natural increase, but S. Cunningham, formerly of St. Albert, who now lives at the lake, thinks that merely because the water is higher the fish come closer in shoals and are more easily caught.

Work is in progress in moving the trail from Lesser Slave lake to Peace river, but the party were not on that trail after work commenced.

A large fur trade is done at Lesser Slave lake, the traders being the H. Co., Brown & Cornwall and G. Desjarlais. There is a police detachment under Insp. West, and Roman Catholic and Church of England missions.

A. C. Talbot, D. L. S., and party were surveying the claims of the half-breed settlers and reached Edmonton yesterday.

Mr. Ponton goes back in a day or two, to do some work on the Indian reserve at Onion Lake near Fort Pitt.

GRAIN MARKETS.

Commercial, Oct. 7. The market for Manitoba wheat has been extremely dull and business restricted owing to lack of demand. There has been a gradual decline of 1-4 per bushel on the week and at the close yesterday the best prices obtainable were 67 3-4 for 1 hrd and 64 3-4 for No. 1 northern in store Fort William, either spot or delivery, first half October. Large quantities of 1 northern were offering at 64-4-6 October delivery without finding buyers. No. 2 northern is worth 61-1-2; tough 1 northern is worth 60c in store King's, and tough 2 northern, 58c.

Country wheat—Receipts have been fairly liberal considering the weather and the fact that many buyers have been temporarily out of the market owing to decision of elevator companies not to buy any more wheat until it is dry. The prevailing quotation is 58 to 60 per bushel in car lots to 55c at country points according to rate of freight.

Oats—Some reports are to the effect that oats are very scarce owing to eastern shipments. Other buyers claim to have plenty of oats. Prices here have not changed since last week and we still quote 30 to 32c per bushel for car lots on track at Winnipeg. At country points 24 to 25c per bushel is being paid. Most of the oats coming in are from north-western points.

Barley—Receipts are light as yet and prices remain the same as last week. For malting grades dealers quote 38 to 40 per bushel in car lots on track here. Feed barley is worth 34 to 36c.

IMMIGRANTS ACCOMMODATED.

The following table shows the number of settlers who have received accommodation in the immigration hall, Edmonton, each month from July, 1900, to June, 1901:

July,	69
August,	119
September,	41
October,	69
November,	58
December,	24
1901.	
January,	21
February,	21
March,	50
April,	74
May,	74
June,	74
Total,	694

Unreserved Auction Sale.

Margaret Bailey, late of the town of
Edmonton, deceased, having been lost
or destroyed and satisfactory proof
being made to me by affidavit of each
loss or destruction of said duplicate
Certificate of Title, Public Notice is
hereby given that after the expiry of
four weeks from the date of the first
publication of this notice in the Ed-
monton Bulletin, a new duplicate
Certificate of Title will be issued in
favor of the said Margaret Bailey, de-
ceased.

GEO. ROY, Registrar.

Edmonton, Oct. 1st, 1904. 99-194.

LOCAL.

—H. Astley is retiring from the grocery business.

—School attendance for September, 267 pupils on the roll.

—Jules Royat, of the land office, is on a week's vacation.

—Geo. Sellers, of Ponoka, has been granted a land license.

—Chief factor, W. T. Livock, of the H. B. Co., is in Winnipeg.

—The town is today being visited by a sample of real prairie wind.

—Mr. Bruvile returned last night from a trip to the states and to the coast.

—Elsby, Legal, accompanied by Father Hamilton, left for Montreal Tuesday.

—Messrs. H. G. Campbell and H. Brown left yesterday for Beaver Lake on a shooting trip.

—Brick work on the new Presbyterian church is progressing rapidly and will be completed next week.

—Miss Sheppard, of Winnipeg, left on Thursday to visit her brothers at Leduc, before she goes to her home.

—A twenty-five pound turnip grown on Stony Plain is on exhibition in J. B. Mercer's window.

—Miss Sina returned to Seattle Thursday after spending the summer as the guest of Miss McCleod.

—Jas. A. Ross, assistant postmaster, went to Vancouver this morning. He returns to-morrow night.

—Miss M. N. Young, teacher at Battle Lake, came up on Wednesday's train to attend the teachers' convention next Monday and Tuesday.

—Calgary Herald, Oct. 9.—W. R. Hull is expected back from England during the course of the next few days. There is a street rumor to the effect that shortly after his return a deal will be effected whereby his business will be amalgamated with that of P. Burns & Company.

THE RAILWAY.

Work has proceeded slowly ever since the snow storm, nearly three weeks ago. Trains left off by the snow and subsequent wet went home and did not return. The rain of Tuesday last caused a further delay. The grade will be finished to-morrow to Vogel's house, a little less than a mile from the bridge, and camp will probably be shifted on Monday. The work on the flat over the bridge is completed. There remains, however, more work than the force at present employed can accomplish if the season closes as early as usual. If the company are to fulfill their agreement with the town they must put forth greater exertions than they have yet. The culvert timber which was the cause of some delay has arrived and the bridge timber is also on hand.

NEW RAILWAY TIME.

Commencing on Monday the C. & E. time table is changed. The express leaves Edmonton on Tuesday, Thursday and Saturday at 8:30 a. m. as at present. It arrives here, however, on Monday, Wednesday and Friday at 5 p. m. an hour earlier than now. The mixed leaves on Monday, Wednesday and Friday at 7:10 a. m. and arrives here on Tuesday, Thursday and Saturday at 7 p. m. instead of 8:30 a. m. as at present.

The express reaches Calgary at 5:30 p. m. and the mixed at 6:30.

Trains on the MacLeod branch leave Calgary at 7:30 on Tuesday, Thursday and Saturday and return at 9 p. m. the same day. The train remains at MacLeod from 12:45 to 3 p. m.

CLARK WALLACE DEAD.

"Toronto, Oct. 8.—N. Clarke Wallace, M. P., died to-night at 22:15 o'clock. The deceased gentleman had been ill for the past weeks and very seriously for the past week.

His blood had become impoverished and anemia in its worst form had taken hold of him. He leaves a widow, four sons and three daughters. The eldest son, Captain Thos. Wallace, of the York rangers, was a private in the first C. O. B. Co.

Dr. Sprule, deputy grand master of the Orange body, becomes grand master of that body by Mr. Wallace's death.

The funeral takes place Saturday.

SLAVE LARS SURVEY.

A. C. Talbot, D. L. S., with his assistants, Mr. G. A. Gray and Mr. J. H. Talbot, arrived yesterday from Lesser Slave lake where they have been engaged in surveying the lake and its tributaries. The land having been settled on before the survey made the work a rather difficult one. The maximum amount of land allowed any settler was 160 acres and where settlement was sufficiently scattered to permit it, allotments of this size were made. Where the land was more thickly settled, by the willow post, smaller lots had to be surveyed, varying in size from twelve acres upward. In all 140 lots were surveyed. The work of laying out the settlement commenced on the north side of the lake, the lake running north and south at right angles to the lake. A start was made a number of miles east of Willow Point and carried westward, to slightly beyond the H. B. Co's land. The survey of the lake was completed in a few days. The lake is a large body of water, about 10 miles long and 10 miles wide. It is a very beautiful lake, with many islands and a large number of small bays. The water is very clear and the scenery is very beautiful. The lake is a very important feature of the country and is a great source of life and health to the people who live around it.

—A Sawyer-Massey separator, with cyclone stacker, for Alex. Bernier, of the Fort, was sold yesterday. Other machines sold by the same firm this season are: Starrett, Northern, P. O., 12 h. p. with engine separator, Wm. Stuby, Stony Plain, 8 h. p. and Eclipse separator; Boisseneault, Massicot, and L'Abbe, Morinville, steamer, 17 h. p. and Peckless separator; Gibson Bros., Naimyo, 17 h. p. engine and Peckless separator, and Alcide Lamoureux, 20 h. p. traction engine.

—Walter & Humberstone's boom broke early yesterday morning and some three thousand logs went adrift down the river. At Fraser's mill they were held up for a time by the boom but the pressure was too great and that boom also broke letting out some 800 logs that Mr. Fraser had in the pocket. The break was repaired as soon as possible and 700 or 800 logs saved out of the loggers. The others valued at \$1.00 a piece, will be a total loss.

—Strathcona's electric light plant is to be in working order next week. Five are lights will be placed on the streets, one at the station, and the others distributed at the following points: Cove's corner, Douglas Bros., Presbyterian church and corner of Grand and Whyte avenues. In connection with the installation of the light it is suggested by a member of the Strathcona council that Edmonton and Strathcona combine in erecting and maintaining a chain of lights between the two towns.

—All ladies working for the Apron Bazaar to be held in Robertson Hall, on Friday Oct. 18th, are kindly requested to send in their contributions to any member of the Ladies' Aid society before Oct. 15th. The ladies of the society are: Mrs. John Kelly, Mrs. W. J. Walker, Mrs. D. W. White, Mrs. Cooper, Mrs. J. Goodridge, Mrs. MacNaughton, Mrs. John Fraser, Mrs. Kimball, Mrs. and Mrs. O. Ormsby, Mrs. K. A. McCleod, Mrs. D. C. Robertson, Mrs. D. G. McQueen, (President), Mrs. Dunlop, (Treasurer), Mrs. Anley, (Secretary).

—Donald Ross is applying for a license for his hotel building on the flat which has for many years been lying idle and almost vacant. The building is three stories frame and is thoroughly adapted for use as an hotel, having been built originally for that purpose. Mr. Ross was the proprietor of the first hotel in Edmonton, in the days when a discount guest could be told to go to the next place—which was Winnipeg. Times have greatly changed since then and the railway line now cuts through Mr. Ross' garden and the station that is to be built just west of his property. On the flat many industries are springing up and it only requires the advent of the railway to make it a busy and industrious lower town.

WEATHER AND HARVEST.

The fine weather which has continued for a full week was broken on Monday night and Tuesday by a drizzling rain which suspended harvesting and stacking operations. Wednesday and Thursday were fair and to-day is clear with a strong drying wind, which will have an excellent effect. Cutting and stacking are in full swing once more. Threshing will be general throughout the district next week. Many threshers are already at work, mostly threshing for the stock.

NEW FLOUR.

Shera & Co. of Port Saskatchewan have bought 3,000 bushels of new wheat this season to date. Five team loads of new flour from this wheat are being delivered to-day to Ross Bros., Edmonton. The average price paid for the wheat was 90c. The grain was of good quality and in good condition, but was slightly bleached in color, being threshed from the stock. Shera & Co. who are lessees of the Port Saskatchewan mill will soon run the mill night and day.

Victoria—J. Brandon, A. G. Harrison, town; T. H. Lavoie, St. Albert; Geo. MacLeod, Spirit river, N. W. T.; Thos. Kelly, Illinois.

NORTH STUBBORN.

Everybody busy harvesting. Crops are great. The good weather presents a striking appearance as they stand close to each other, with the well-fitted heads waving to and fro as the sun strikes them. Most of the grain was cut before the snow. A few are not cut yet. Others are stacking. One farmer who has a great force of help is cutting, stacking and plowing at the same time.

Clyde True wishes to inform a certain northern friend that he is resigning his home and duties in every particular.

The Methodist people here are going to hold a harvest festival on Oct. 28th. A large crowd is expected.

Johnnie McEunier sold out his crop of Mr. McKintick. The latter will now harvest the crop.

Several good opportunities to purchase improved farms in this settlement are worthy of the notice of immigrants.

Colds are quite prevalent at present through the country, but severe sickness seems not follow.

METEOROLOGICAL.

Max. Min.

Monday, 62 40

Tuesday, 55 30

Wednesday, 52 40

Thursday, 52 40

Friday, 52 40

Precipitation 0.51, or half an inch.

The Winnipeg Tribune says that the crops in North Dakota did not turn out so well as had been expected, owing to the dry weather, and many fields lay in ruins. The weather for the dry light in their yield. The weather for the dry light in their yield. The weather for the dry light in their yield.

SIXTHS.

Corbett—A. Horse Hill, on October 8th, the wife of R. Corbett, of a son.

The weather was unpleasantly wet until the middle of July. After that it was quite pleasant.

Who members of the party outside of Messrs. Talbot and Craig, were Malcolm and Basil Campbell, J. F. Wilkie, Joe Laforme, Alex. McCorkier, Fred and J. F. Gladu, Stacy Savard and P. A. Brunette, cook.

Mr. Talbot leaves for the east either to-morrow or Monday.

Regina, N. W. T., Oct. 7.—Dr. Martin, medical officer of health, reported to the town council that a case of small pox had been discovered at the house of Jas. Miller, C. P. R. section foreman. It had been brought there by his son, who works on the Pasqua section.

NOV. 9th. A HOLIDAY.

Ottawa, Oct. 7.—The 9th of November, King Edward's birthday will be a public holiday under the interpretation acts. Among holidays is the birthday or day fixed by proclamation for the celebration of the birthday of the reigning sovereign.

There is no intention so far to issue so that the 9th of November will be observed as a public holiday.

Free Press, Oct. 2.—The weather throughout the province yesterday according to C. P. R. reports was clear and calm, the only indications of rain being at Winnipeg.
